

CAR PARKING

Welcome to the Big Shed!
We have limited car parking available on site, and the farm is busy, so please park mindfully.

Loading / Unloading
Please keep the track in front of the Big Shed clear of vehicles, as this an access track to other parts of the farm. If you have to stop briefly, please stay with the vehicle and be prepared to move on if requested.

Car Park No 1
Drive down the track, through the courtyard, through the gate and continue past the Big Shed. There is a small car parking area on the left that will take about 9 to 10 cars, more if parked carefully.

Car Park No 2
This is right next to the Big Shed, and is our official 'Disabled' car parking space. Will take between 3 and 6 cars (if the first three are blocked in). Priority parking for people with walking difficulties and loading and unloading.

Car Park No 3
Also known as the 'Winter Parking area' and is located at the top of the farm track just as you turn off the main road. This will take up to 15 cars, if parked 'nose or tail in', rather than parallel to the track. It is a pleasant three minute walk from here down the hill to the Big Shed.

Car Park No 4
Our 'Overspill' car park is across the main road and through the hill gate. For big events, this field will take up to 100 cars. Take care to leave gate as found. Car parking Marshalls can be useful.

Farm Courtyard
Please avoid parking here for any length of time, as this space is reserved for Tombreck residents and visitors to the Farm Shop.

Please do not park or drive on any of the grassy areas in front of the Big Shed.

Please do not park anywhere on the track apart from in Car Park no 3.

Thank You!
